院长寄语

历经 40 年改革开放，中国跃居世界第二大经济体；过去十年，中国贡献 1/3 强的世界经济增长，拉动全球复苏；近五年，中国智慧、中国方案助力全球治理，推动经济发展。中国改革进入深水区，金融改革正在路上。

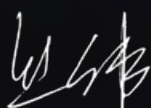

天下之治，有因有革，期于趋时适治。当前中国经济进入新常态，过去依靠投资和出口拉动的粗放式增长模式无法持续，必须转为依赖金融、医疗、教育和高科技等产业，才能跨越中等收入陷阱迈向高收入国家。而金融是现代经济的血脉，因此国家经济转型有赖于金融业的变革发展。在此进程中，具有先进知识和国际视野的高级经济和金融人才成为推动转型的关键因素。

深圳高等金融研究院以培养优秀金融研究和实务相结合的高端复合型人才为己任，自成立伊始即以培养创新拔尖人才、搭建高水平研究和交流平台、建设高端决策智库为使命。现时深高金已初步汇聚形成兼具全球视野与本土智慧的理事和研究团队。博观而约取，厚积而薄发。我们将培养学生朝乾夕惕的治学态度，博学之、审问之、慎思之、明辨之、笃行之；培育学生的国际视野，使之成为精益求精、善于创新、高瞻远瞩、具备寰球视野并致力改善企业和社会命运的全球领袖人才。

金融是一个国家的重要核心竞争力，而风险管理则为其要义。金融科技浪潮涌动，金融业创新发展加快脚步，而伴随金融体系复杂度与开放程度越来越高，风险也随之积聚。金融安全对于经济发展、社会稳定、国家安全的意义愈来愈重大。

因时势，深高金建立了“宏观金融稳定与创新研究中心”、“金融科技与社会金融研究中心”、“制度与资本市场研究中心”、“经济数据研究中心”等，望能集合智慧，信而有征，产生一系列对金融和经济发展具有重大理论价值和现实意义的研究成果，推动金融更好服务实体经济，有效防范和化解金融风险，助力深化金融改革，促进经济和金融良性循环健康发展。

九层之台，起于垒土；合抱之木，生于毫末。深高金将承香港中文大学之深厚积淀，扬东西方之所长，笃学笃行，努力成为世界一流的金融学院，为人类福祉贡献力量。

Director's Message

After forty years of economic reform, China is now the world's second largest economy, and it increasingly plays a pivotal role in world affairs. Over the past decade, China has contributed to more than one third of the world's total economic growth, helping drive a global recovery. In the past five years, China has spearheaded innovative ideas and solutions that have boosted economic development around the world. China's reform goes into great depth and the opening up of its financial sector is underway.

Now, China's economic reform has entered a new phase. The old Chinese saying, "All good principles must comply with the changing times if they wish to remain relevant," reminds us that these new challenges must be analyzed and overcome. China's traditional approach to economic growth, which has depended largely on investments and exports, is no longer applicable in today's economy. Now, more than ever, significant adjustments to the economy's progress must be driven by industries such as finance, medicine, education, and technology for sustainable growth as the country transitions from middle-income to high-income status. Finance, in particular, is vital to any modern economy. Focusing on the development of the finance sector is therefore essential to China's ongoing economic reform. This moment calls for a new generation of business leaders and scholars who possess a deeper understanding of China's economy and financial system in a global environment.

Fortunately, our values are in sync with the times. Shenzhen Finance Institute (SFI, thereafter) trains future business leaders through engaging, innovative approaches to learning that will ensure their professional success in the financial industry. It is our mission to prepare students for leadership roles and foster their entrepreneurial spirit; to conduct advanced research and encourage academic exchanges that promote better financial practices; and to function as a state-of-the-art think-tank that can help stimulate further economic development. Our internationalized faculty, researchers, and administrators form a vibrant academic community that offers both local insights

and global outlook. At the same time, we maintain high levels of research productivity and guarantee that our students receive quality education through effective and essential classroom instruction. We inspire our students to study broadly and deeply, to think critically and analytically, and to work creatively and productively. We encourage them to develop a strong moral and ethical character while pursuing excellence in their studies. The goal is for our students to become future business leaders with a global mindset and an abiding concern for society.

Finance is a country's core competitive strength, and risk management is the essence of finance. The revolutions in financial technology, the accelerated pace of financial innovations and development, and the increasing complexity and openness of financial systems have caused risks to accumulate exponentially. Consequently, financial stability has become more and more essential for a country's economic development, social stability, and national security. To rise and meet the current tides, SFI has established the Centers for Macro-Financial Stability and Innovation, FinTech and Social Finance, Institutions and Capital Market, and Economic Data Research, among others. We hope to convey our wisdom and show our strength by generating a series of research initiatives that are rich in theory and valuable in practice. This way, we can better serve our nation's interests, guard against financial instability, deepen financial reforms, and promote the development of a healthy economy.

The saying, "mighty oaks grow from little acorns", applies to the Shenzhen Finance Institute, as we carry on the commitment of the Chinese University of Hong Kong to rigorous education and high academic standards. We will continue to provide outstanding business education, while promoting cutting-edge research in finance. Meanwhile, we will work toward our goal of becoming a world-class institute that will prove instrumental to China's success as a key player on the global stage.

Message from the Programme Director

Welcome to the Master of Science Programme in Finance! Our programme is a rigorous and highly-selective programme that inherits the academic rigor of The Chinese University of Hong Kong with an international education standard and an English immersion learning environment. Our unique approach to instruction comes from our world-class faculty conducting cutting-edge research across modern financial topics, together with senior level practitioners from top-tier financial institutions. Students absorb not only financial theory but also latest market practices across both domestic and international financial sectors.

Beginning with the 2022 intake, we will reorganize the program into two concentrations, FinTech Concentration and Financial Management (FM) Concentration, to allow students to tailor their financial skill development. We invite you to explore these pages to discover our faculty, curriculum, special events and other resources you will encounter in your exciting life in CUHK-Shenzhen.

项目简介 Programme Overview

金融学理学硕士项目兼具全球视野与中国实务，配备国际名校一流师资，旨在培养能够适应不断变化发展的金融市场所需要的复合型、创新型和应用型人才。项目采用英文授课，产教融合，课程内容分为金融科技方向与金融管理方向，两个方向协同发展，满足金融领域对人才的全面需求。学生可根据自己的职业规划或兴趣爱好选择学习方向。

The programme aims to cultivate exceptional, high-skills professionals with both deep theoretical training and practical capabilities. Courses are led by a combination of world-class, international-trained faculty, and highly-accomplished senior financial practitioners. The programme offers two concentrations, FinTech and Financial Management, allowing students to develop specialized skills for the financial industry. Students may declare their concentrations with their initial application to the programme.

金融科技方向 涉及多学科、多领域，课程内容覆盖金融学以及人工智能、区块链、大数据等现代信息科技知识，侧重应用与实践，将现代信息技术应用于金融商业场景，培养应用型金融科技人才。该方向申请者需具备一定的数理逻辑能力及编程能力，但不限本科或硕士（如有）专业方向。

The FinTech Concentration emphasizes the new applications of technology in financial services. It provides both a broad and in-depth view of various Fintech topics (e.g., machine learning, blockchain, big data) and allows students to develop programming skills. The new FinTech concentration will help students learn the skills to innovate and build the financial technologies of the future. This concentration welcomes students with a quantitative aptitude from a variety of fields, including but not limited to Engineering, Mathematics, Finance and Business.

金融管理方向 注重搭建金融经济领域最前沿的系统知识框架，提供经济、金融与会计财务等基础理论和研究方法等课程，紧密结合中国实践，重视对当代中国经济、金融形势的解读，为金融监管部门、各类金融机构和研究机构等就业渠道培养具备较强研究能力和创新实践能力的人才。该方向申请者不限本科或硕士（如有）专业方向。

The Financial Management Concentration offers courses with a deep foundation of theory, supplemented with practical applications. This Concentration is designed to meet the needs of professionals in the rapidly changing fields of finance and investment. The curriculum provides training for a wide variety of financial careers, not only in traditional areas such as banking, mutual funds, brokerage and investment banking firms, but also in related fields of regulatory, government, and academics. This concentration is appropriate for all students who are interested in advanced training across the breath of modern Finance.

2018 级金融理学硕士项目学生，香港大学学士

*Class 2020 PhD Programme in Finance, CUHK-Shenzhen
Class 2018 MSc FIN, Bachelor at The University of Hong Kong*

金融硕士项目为同学们提供了高质量的教学。除了学习金融理论知识，还学习到了行业所需的核心专业技能，如 VBA 和 Python 编程。我们的项目提供了很多机会，如 FIN6108 课程和金融沙龙，让同学们有机会与许多业界大咖建立联系，他们为我们的实习和工作机会也都提供了非常大的帮助。

The MSc Finance programme at SFI truly provides students with high-level training. Beyond learning Finance theory, I feel I'm now equipped with the hardcore professional skills required for the industry such as VBA and Python programming. Our programme presents great opportunities such as 6108 course and FINest Salon to network with many high-level professional practitioners who can open the door to valuable internships and job opportunities. You'll find your progress here will be a crucial stepping-stone towards your future success!

2019 级金融理学硕士项目学生，中国人民大学学士

Class 2019 MSc FIN, Bachelor at Renmin University of China

坐落于中国创新之城的深高金，为我们拓宽眼界提供了宽广的平台。对我而言，选择金融硕士项目，不光是为了向业界和学术界知名的大牛老师学习，更是为了与下一代金融英才并肩成长。以就业为导向的研究生项目设置，为我们提供了广泛丰富的实习资源。得益于阅历丰富的业界导师的带领下，我可以深入了解当代中国的金融问题和挑战，认识更大的世界。

Located in China's most innovative city, SFI provides us with a wide platform to broaden our horizons. For me, choosing the MSc Finance programme was a choice to learn from the most famous experts in the finance field and study with top professionals of the next generation. It's an employment-oriented graduate program, and SFI's MSc Finance programme delivers, by offering us so many internship opportunities. Guided by experienced mentors, I can take a deep dive into real world business challenges.

2020 级金融理学硕士项目学生，清华大学学士

Class 2020 MSc FIN, Bachelor at Tsinghua University

金融市场的风格演进日益波诡云谲。经济学均衡所主宰的时代已经落幕；铺陈开的是前所未有之大变局与全方位的新挑战。要想在嬗变中御风而行，继续深造以进一步更新认知体系就显得尤为重要。SFI 为学子提供了理论课程以及最前沿的行业视角，通过向下扎根、向前发展的金融素质教育，帮助我们产生独立的原创性见解。

Finance evolves as the market steps into a more complicated situation. The era of grand equilibrium has gone; instead we are now faced with unprecedented challenges from all directions. In my view, updating the knowledge system through postgraduate studies becomes even more important if one wishes to ride the waves of changes. SFI provides students with theoretical courses as well as latest industry reviews, encouraging us to generate original insights with grounded, cutting-edge financial training.

2021 级金融理学硕士项目学生，北京大学学士

Class 2021 MSc FIN, Bachelor at Peking University

目前金融行业发展已经进入了全新的阶段，从业者面临更多更复杂的挑战。随着中国的金融体系逐步开放，具备国际视野、了解金融科技的金融人才越来越抢手，而这些都能够在位于深圳的金融项目中获得。港中大（深圳）有来自全球各地的教授师资为你拓宽全球视野，同时让你掌握核心的金融实操能力。另外，作为一个就业导向的项目，深高金的 CDC 部门会为同学量身打造未来的求职路线，并为同学提供大量的资源。在完成金融硕士项目后，你会充满能量地迎接未来的挑战。

At present, the financial industry has entered a new stage, and practitioners are facing more and more challenges. With the gradual opening of China's financial system, financial talents with international vision and understanding of financial technology are becoming more and more popular, which can be obtained in the MSc Fin at CUHK-Shenzhen. The University has professors from all over the world to broaden your vision and help you master the core financial practice ability. In addition, as an employment-oriented programme, the CDC of SFI will tailor the career path for each student and provide lots of resources. After completing the MSc Fin program, you will be ready to meet the future challenges.

2022 级金融理学硕士项目学生，北京大学学士

Class 2022 MSc FIN, Bachelor at Peking University

中国金融体系高速发展，如今的金融市场机遇与风险并存，也对金融专业的学生提出了更高的要求——既需要掌握充分的专业知识，又需要积累丰富的业界实践经验。金融硕士项目师资力量雄厚，又同业界保持紧密联系。在这里既可以跟随教授学习最前沿的金融理论，也可以在业界导师的引领下了解金融市场的最新动向。深圳是中国对外开放的窗口，深高金是世界认识中国金融体系的平台，相信我们一定会在项目中受益匪浅，成为自己梦想中的样子。

With the rapid development of China's financial system, opportunities and risks coexist in the market, which puts forward higher requirements for students majoring in Finance. They need not only to have a good command of professional knowledge, but also to accumulate rich practical experience in industry. MSc in Finance provides comprehensive curriculum and keeps close contact with the industry, which makes it possible for students to learn frontier knowledge from outstanding professors as well as understand the financial market under guidance of industry tutors. Shenzhen is the window of China's opening to the whole world, and SFI is the platform for the world to understand China's financial system. I believe we will benefit greatly from this program and become the image of our dreams.
